

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-5810	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Clinical sample data were verified by western blot analysis and immunohistochemistry.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication date, since the sample size of this study is small, we will increase the sample size for further verification later.
7	To whom will you share the data?	Medical scholars and obstetricians who are interested in studies of reproductive medicine.
8	For what type of analysis or purpose?	For analysis to elucidate the changes of immune-related gene expression and immune landscape in unexplained infertility patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: wangcy18@lzu.edu.cn.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
