

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-4499	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The biological effect of dual knockdown of Survivin and OCT4 in vivo and vitro study in ESCC.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The construction of oncolytic adenovirus carrying short hairpin RNA (shRNA) of survivin (shSRVN) and OCT4 (shOCT4) to achieve dual knockdown of survivin and OCT4.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical oncologists and cardiothoracic surgeons who are interested in studies of esophageal cancer.
8	For what type of analysis or purpose?	For fundamental study about the oncolytic adenovirus in ESCC.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: zhigang.li@shsmu.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
