

TRIPOD Checklist: Prediction Model Development

Section	Item	Checklist description	Reported on Page Number/Line Number	Reported on Section/Paragraph
Title and abstract				
Title	1	Identify the study as developing and/or validating a multivariable prediction model, the target population, and the outcome to be predicted.	page 1/line 3-4	title
Abstract	2	Provide a summary of objectives, study design, setting, participants, sample size, predictors, outcome, statistical analysis, results, and conclusions.	page 2/line 38-55	Abstract
Introduction				
Background and objectives	3a	Explain the medical context (including whether diagnostic or prognostic) and rationale for developing or validating the multivariable prediction model, including references to existing models.	page 3-5/line66-130	Introduction
	3b	Specify the objectives, including whether the study describes the development or validation of the model or both.	page 3-5/line66-130	Introduction
Methods				
Source of data	4a	Describe the study design or source of data (e.g., randomized trial, cohort, or registry data), separately for the development and validation data sets, if applicable.	page 5/line 136-141	Methods/Paragraph 1
	4b	Specify the key study dates, including start of accrual; end of accrual; and, if applicable, end of follow-up.	page 5/line 136-141	Methods/Paragraph 1
Participants	5a	Specify key elements of the study setting (e.g., primary care, secondary care, general population) including number and location of centres.	page 5-7/line 145-196	Methods/Paragraph 2-5
	5b	Describe eligibility criteria for participants.	page 5-7/line 145-196	Methods/Paragraph 2-5
	5c	Give details of treatments received, if relevant.	page 5-7/line 145-196	Methods/Paragraph 2-5
Outcome	6a	Clearly define the outcome that is predicted by the prediction model, including how and when assessed.	page 5/line 145-196	Methods/Paragraph 2-5
	6b	Report any actions to blind assessment of the outcome to be predicted.	page 5-7/line 145-196	Methods/Paragraph 2-5
Predictors	7a	Clearly define all predictors used in developing or validating the multivariable prediction model, including how and when they were measured.	page 5-7/line 145-196	Methods/Paragraph 2-5
	7b	Report any actions to blind assessment of predictors for the outcome and other predictors.	page 5-7/line 145-196	Methods/Paragraph 2-5
Sample size	8	Explain how the study size was arrived at.	page 5-7/line 145-196	Methods/Paragraph 2-5

Missing data	9	Describe how missing data were handled (e.g., complete-case analysis, single imputation, multiple imputation) with details of any imputation method.	page 5-7/line 145-196	Methods/Paragraph 2-5
Statistical analysis methods	10a	Describe how predictors were handled in the analyses.	page 5-7/line 145-196	Methods/Paragraph 2-5
	10b	Specify type of model, all model-building procedures (including any predictor selection), and method for internal validation.	page 7/line 200-209	Methods/Paragraph 6
	10d	Specify all measures used to assess model performance and, if relevant, to compare multiple models.	page 7/line 200-209	Methods/Paragraph 6
Risk groups	11	Provide details on how risk groups were created, if done.	page 7/line 200-209	Methods/Paragraph 6
Results				
Participants	13a	Describe the flow of participants through the study, including the number of participants with and without the outcome and, if applicable, a summary of the follow-up time. A diagram may be helpful.	page 8/line 214-230	Results/Paragraph 1
	13b	Describe the characteristics of the participants (basic demographics, clinical features, available predictors), including the number of participants with missing data for predictors and outcome.	page 8/line 214-230	Results/Paragraph 1
Model development	14a	Specify the number of participants and outcome events in each analysis.	page 8-9/line 234-245	Results/Paragraph 2
	14b	If done, report the unadjusted association between each candidate predictor and outcome.	page 8-9/line 234-245	Results/Paragraph 2
Model specification	15a	Present the full prediction model to allow predictions for individuals (i.e., all regression coefficients, and model intercept or baseline survival at a given time point).	page 9/line 249-264	Results/Paragraph 3
	15b	Explain how to use the prediction model.	page 9/line 249-264	Results/Paragraph 3
Model performance	16	Report performance measures (with CIs) for the prediction model.	page 9/line 249-264	Results/Paragraph 3
Discussion				
Limitations	18	Discuss any limitations of the study (such as nonrepresentative sample, few events per predictor, missing data).	page 11/line 314-318	Discussion/Paragraph 1
Interpretation	19b	Give an overall interpretation of the results, considering objectives, limitations, and results from similar studies, and other relevant evidence.	page 9-11/line 268-321	Discussion/Paragraph 5
Implications	20	Discuss the potential clinical use of the model and implications for future research.	page 11/line 319-332	Discussion/Paragraph 5/Co
Other information				
Supplementary information	21	Provide information about the availability of supplementary resources, such as study protocol, Web calculator, and data sets.	page 11/line 325-332	Conclusions
Funding	22	Give the source of funding and the role of the funders for the present study.	page 12/line 335-338	Funding
