

Materials Design Analysis Reporting (MDAR) Checklist for Authors

The MDAR framework establishes a minimum set of requirements in transparent reporting applicable to studies in the life sciences (see Statement of Task: [doi:10.31222/osf.io/9sm4x](https://doi.org/10.31222/osf.io/9sm4x)). The MDAR checklist is a tool for authors, editors and others seeking to adopt the MDAR framework for transparent reporting in manuscripts and other outputs. Please refer to the MDAR Elaboration Document for additional context for the MDAR framework.

Materials

| | | |
|---|--------------------------------------|--------------------|
| Antibodies | Yes (indicate where | n/a |
| For commercial reagents, provide supplier name, catalogue number and RRID, if available. | Yes (Methods/paragraph 1-4, 9) | |
| Cell materials | Yes (indicate where | n/a |
| Cell lines: Provide species information, strain. Provide accession number in repository OR supplier name, catalog number, clone number, OR RRID | Yes (Methods/paragraph 1) | |
| Primary cultures: Provide species, strain, sex of origin, genetic modification status. | / | No primary culture |
| Experimental animals | Yes (indicate where | n/a |
| Laboratory animals: Provide species, strain, sex, age, genetic modification status. Provide accession number in repository OR supplier name, catalog number, clone number, OR RRID | / | No animal study |
| Animal observed in or captured from the field: Provide species, sex and age where possible | / | No animal study |
| Model organisms: Provide Accession number in repository (where relevant) OR RRID | / | No animal study |
| Plants and microbes | Yes (indicate where provided: | n/a |
| Plants: provide species and strain, unique accession number if available, and source (including location for collected wild specimens) | / | No plants study |
| Microbes: provide species and strain, unique accession number if available, and source | / | No microbes study |
| Human research participants | Yes (indicate where | n/a |
| Identify authority granting ethics approval(IRB or equivalent committee(s), provide reference number for approval. | / | No human study |
| Provide statement confirming informed consent obtained from study participants. | / | No human study |
| Report on age and sex for all study participants. | / | No human study |

Design

| | | |
|---|--------------------------------------|-------------------------|
| Study protocol | Yes (indicate where | n/a |
| For clinical trials, provide the trial registration number OR cite DOI in manuscript. | / | not clinical trial |
| Laboratory protocol | Yes (indicate where | n/a |
| Provide DOI or other citation details if detailed step-by-step protocols are available. | / | Protocol provided |
| Experimental study design (statistics details) | Yes (indicate where | n/a |
| State whether and how the following have been done, or if they were not carried out. | | |
| Sample size determination | / | No human study |
| Randomisation | / | No human study |
| Blinding | / | No human study |
| Inclusion/exclusion criteria | / | No human study |
| Sample definition and in-laboratory replication | Yes (indicate where | n/a |
| State number of times the experiment was replicated in laboratory | Yes (Methods/paragraph 2, 5-8) | |
| Define whether data describe technical or biological replicates | Yes (Methods/paragraph 2, 5-7) | |
| Ethics | Yes (indicate where provided: | n/a |
| Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval. | / | No human study |
| Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval. | / | No animal study |
| Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required, explain why. | / | No specimen used |
| Dual Use Research of Concern (DURC) | Yes (indicate where | n/a |
| If study is subject to dual use research of concern, state the authority granting approval and reference number for the regulatory approval | / | Not a dual use research |

Analysis

| Attrition | Yes (indicate where | n/a |
|---|----------------------------|-------------------------------------|
| State if sample or data point from the analysis is excluded, and whether the criteria for exclusion were determined and specified in advance. | / | No human study |
| Statistics | Yes (indicate where | n/a |
| Describe statistical tests used and justify choice of tests. | Yes (Methods/paragraph 10) | |
| Data Availability | Yes (indicate where | n/a |
| State whether newly created datasets are available, including protocols for access or restriction on access. | / | No datasets established |
| If data are publicly available, provide accession number in repository or DOI or URL. | / | No datasets established |
| If publicly available data are reused, provide accession number in repository or DOI or URL, where possible. | / | No datasets established or reused |
| Code Availability | Yes (indicate where | n/a |
| For all newly generated code and software essential for replicating the main findings of the study: | | |
| State whether the code or software is available. | / | No newly code or software generated |
| If code is publicly available, provide accession number in repository, or DOI or URL. | / | No newly code or software generated |

Reporting

| Adherence to community standards | Yes (indicate where provided: section/paragraph) | n/a |
|--|---|------------|
| MDAR framework recommends adoption of discipline-specific guidelines, established and endorsed through community initiatives. Journals have their own policy about requiring specific guidelines and recommendations to complement MDAR. | | |
| State if relevant guidelines (eg., ICMJE, MIBBI, ARRIVE) have been followed, and whether a checklist (eg., CONSORT, PRISMA, ARRIVE) is provided with the manuscript. | ICMJE guidelines were followed, as the journal follows ICMJE recommendations for publication. | |
