Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The animal study protocol will be shared. In particular, it includes how to successfully use dental implanter for standardized sample implantation, which has seldom been provided in previous studies.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Detailed protocol of preparation of the BG and MBG coated Ti-6Al-4Vporous scaffolds will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Scientists who are interested in studies of 3D printed Ti-6Al-4V scaffolds and bone regeneration.
8	For what type of analysis or purpose?	In order to improve the surface modification technology of Ti-6Al-4Vporous scaffolds.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: zzggdd@sina.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
