

## TRIPOD Checklist: Prediction Model Development

Section	Item	Checklist description	Reported on Page Number/Line Number	Reported on Section/Paragraph
<b>Title and abstract</b>				
Title	1	Identify the study as developing and/or validating a multivariable prediction model, the target population, and the outcome to be predicted.	Page1/line1-2	Title page/Para1
Abstract	2	Provide a summary of objectives, study design, setting, participants, sample size, predictors, outcome, statistical analysis, results, and conclusions.	Page2-3/line24-46	Abstract/Para1
<b>Introduction</b>				
Background and objectives	3a	Explain the medical context (including whether diagnostic or prognostic) and rationale for developing or validating the multivariable prediction model, including references to existing models.	Page3-4/line61-73	Introduction/Para1
	3b	Specify the objectives, including whether the study describes the development or validation of the model or both.	Page4/line73-77	Introduction/Para2
<b>Methods</b>				
Source of data	4a	Describe the study design or source of data (e.g., randomized trial, cohort, or registry data), separately for the development and validation data sets, if applicable.	Page4/line80-91	Methods/Para1
	4b	Specify the key study dates, including start of accrual; end of accrual; and, if applicable, end of follow-up.	Page4/line80-91	Methods/Para1
Participants	5a	Specify key elements of the study setting (e.g., primary care, secondary care, general population) including number and location of centres.	Page5/line92-100	Methods/Para2
	5b	Describe eligibility criteria for participants.	Page4/line80-91	Methods/Para1
	5c	Give details of treatments received, if relevant.	Page5/line102-107	Methods/Para3
Outcome	6a	Clearly define the outcome that is predicted by the prediction model, including how and when assessed.	Page5/line109-122	Methods/Para3
	6b	Report any actions to blind assessment of the outcome to be predicted.	Page5/line109-122	Methods/Para4
Predictors	7a	Clearly define all predictors used in developing or validating the multivariable prediction model, including how and when they were measured.	Page5/line109-122	Methods/Para3-6
	7b	Report any actions to blind assessment of predictors for the outcome and other predictors.	Page5/line109-122	Methods/Para3-6
Sample size	8	Explain how the study size was arrived at.	Page5/line109-122	Methods/Para3-6

Missing data	9	Describe how missing data were handled (e.g., complete-case analysis, single imputation, multiple imputation) with details of any imputation method.	Page4/line80-91	Methods/Para1
Statistical analysis methods	10a	Describe how predictors were handled in the analyses.	Page6-7/line124-135	Methods/Para7
	10b	Specify type of model, all model-building procedures (including any predictor selection), and method for internal validation.	Page6-7/line124-135	Methods/Para7
	10d	Specify all measures used to assess model performance and, if relevant, to compare multiple models.	Page6-7/line124-135	Methods/Para7
Risk groups	11	Provide details on how risk groups were created, if done.		
<b>Results</b>				
Participants	13a	Describe the flow of participants through the study, including the number of participants with and without the outcome and, if applicable, a summary of the follow-up time. A diagram may be helpful.	Page7/line138-144	Results/Para1
	13b	Describe the characteristics of the participants (basic demographics, clinical features, available predictors), including the number of participants with missing data for predictors and outcome.	Page7/line138-144	Results/Para1
Model development	14a	Specify the number of participants and outcome events in each analysis.	Page7-8/line154-160	Results/Para3
	14b	If done, report the unadjusted association between each candidate predictor and outcome.	Page7-8/line154-160	Results/Para3
Model specification	15a	Present the full prediction model to allow predictions for individuals (i.e., all regression coefficients, and model intercept or baseline survival at a given time point).	Page8-9/line162-186	Results/Para4-7
	15b	Explain how to use the prediction model.	Page8-9/line162-186	Results/Para4-7
Model performance	16	Report performance measures (with CIs) for the prediction model.	Page8-9/line162-186	Results/Para4-7
<b>Discussion</b>				
Limitations	18	Discuss any limitations of the study (such as nonrepresentative sample, few events per predictor, missing data).	Page11/line228-237	Discussion/Para4
Interpretation	19b	Give an overall interpretation of the results, considering objectives, limitations, and results from similar studies, and other relevant evidence.	Page11/line228-237	Discussion/Para4
Implications	20	Discuss the potential clinical use of the model and implications for future research.	Page11/line238-279	Discussion/Para5-9
<b>Other information</b>				
Supplementary information	21	Provide information about the availability of supplementary resources, such as study protocol, Web calculator, and data sets.		
Funding	22	Give the source of funding and the role of the funders for the present study.	Page14/line296-298	Funding Support
