

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-6438	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	LncRNA MEG3 can protect the intestinal barrier from cardiac arrest-induced I/R injury via miR-34a-3p/SIRT1/NF- κ B signaling.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	None.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Cardiologists and scholars interested in CA.
8	For what type of analysis or purpose?	To investigate the function of MEG3 in CA-induced intestinal barrier dysfunction.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: happylinjiy@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
