

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/atm-20-4384">http://dx.doi.org/10.21037/atm-20-4384</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	YES
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The characteristics of PTNB including size and site of lesions, the depth and needle tract of puncture and the final pathological diagnosis, which might be useful for further analysis of PTNB,
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis and CT images will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the CT images may be placed on file over time.
7	To whom will you share the data?	Medical oncologists and clinicians who are interested in studies of PTNB.
8	For what type of analysis or purpose?	For analysis to evaluate the safety and develop technique of PTNB.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: <a href="mailto:yongsong6310@yahoo.com">yongsong6310@yahoo.com</a> .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
