

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-7607	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Most the data in the manuscript will be shared, especially resorption pit assays, TRAP staining, and isolation of osteoclast precursors and osteoclastogenesis.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Yes, study protocol, and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique might be updated over time.
7	To whom will you share the data?	Researchers and pediatric surgeons who are interested in studies of Vasoactive Intestinal Peptide (VIP) and congenital pseudarthrosis of the tibia (CPT).
8	For what type of analysis or purpose?	For analysis to evaluate the role of Vasoactive Intestinal Peptide (VIP) on Osteoclast Formation.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: qhy13905316435@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
