

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-21-139	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The RNA-seq in particular will be shared, peritoneal resident macrophages in mice with MLL-AF9-induced acute myeloid leukemia show an M2-like phenotype, which has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Medical oncologists who are interested in studies of peritoneal resident macrophages.
8	For what type of analysis or purpose?	For analysis to evaluate peritoneal resident macrophages in leukemia.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: chongchen@tmu.edu.cn.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
