

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/atm-20-2900">http://dx.doi.org/10.21037/atm-20-2900</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place “-” if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Cell sequencing data after the action of different factors.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No other documents.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Data will always be shared in SRA database.
7	To whom will you share the data?	Researchers in particular interested in peripheral nerve regeneration and traditional Chinese medicine.
8	For what type of analysis or purpose?	For analysis to evaluate the protective effects and its molecular mechanisms of ABPPk on SCs.
9	How or where can the data/documents be obtained?	The sequencing data could be downloaded from the Sequence Read Archive (SRA) database, and also could be obtained through contacting the corresponding author by email <a href="mailto:wanghongkui@ntu.edu.cn">wanghongkui@ntu.edu.cn</a> .
10	Any other restrictions?	No other restrictions.
