

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/atm-20-7805">http://dx.doi.org/10.21037/atm-20-7805</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The program code and individual patient data.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Documents including study protocol, model establishment clinical outcome and analytic code will also be shared.
5	When will data availability begin?	After the study is published.
6	When will data availability end?	Three years after the study is published.
7	To whom will you share the data?	The data will be shared with researchers interested in conducting research regarding toxicities induced by carbon-ion radiotherapy in patients with locally recurrent nasopharyngeal carcinoma.
8	For what type of analysis or purpose?	Data will be shared for research such as pooled analysis.
9	How or where can the data/documents be obtained?	Request of the original data should be sent to the corresponding author.
10	Any other restrictions?	Study protocol should be sent along with the request of the original data, and the data will only be shared after approval of the corresponding author.
