### <u>Materials Design Analysis Reporting (MDAR)</u> Checklist for Authors

The MDAR framework establishes a minimum set of requirements in transparent reporting applicable to studies in the life sciences (see Statement of Task: doi:10.31222/osf.io/9sm4x.). The MDAR checklist is a tool for authors, editors and others seeking to adopt the MDAR framework for transparent reporting in manuscripts and other outputs. Please refer to the MDAR Elaboration Document for additional context for the MDAR framework.

## **Materials**

Antibodies	Yes (indicate where provided:	n/a
For commercial reagents, provide supplier	Methods section and paragraph 1-8	
name, catalogue number and RRID, if available.		

Cell materials	Yes (indicate where provided:	n/a
Cell lines: Provide species information, strain. Provide accession number in repository OR supplier name, catalog number, clone number, OR RRID	Methods section and paragraph 1	
Primary cultures: Provide species, strain, sex of	Methods section and paragraph 1	
origin, genetic modification status.		

Experimental animals	Yes (indicate where provided:	n/a
Laboratory animals: Provide species, strain, sex, age,		N/A
genetic modification status. Provide accession		We did not use
number in repository <b>OR</b> supplier name, catalog		Experimental
number, clone number, <b>OR</b> RRID		animals.
Animal observed in or captured from the		N/A
field: Provide species, sex and age where		We did not use
possible		Experimental
		animals.
Model organisms: Provide Accession number		N/A
in repository (where relevant) OR RRID		We did not use
		Experimental
		animals.

Plants and microbes	Yes (indicate where provided:	n/a
<b>Plants:</b> provide species and strain, unique accession number if available, and source (including location for collected wild specimens)		N/A We did not use Plants and microbes.
<b>Microbes:</b> provide species and strain, unique accession number if available, and source		N/A We did not use Plants and microbes.

Human research participants	Yes (indicate where provided:	n/a
Identify authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.		N/A Our research was not involved human participants.
Provide statement confirming informed consent obtained from study participants.		N/A Our research was not involved human participants.
Report on age and sex for all study participants.		N/A Our research was not involved human participants.

## **Design**

Study protocol	Yes (indicate where provided:	n/a
For clinical trials, provide the trial registration	, , , , , , , , , , , , , , , , , , , ,	N/A
number <b>OR</b> cite DOI in manuscript.		The present study is
number on the Borni manascript.		not a clinical trial.
		not a chinear trial.
Laboratory protocol	Yes (indicate where provided:	n/a
Provide DOI or other citation details if detailed step-	res (maicate where provided.	N/A
by-step protocols are available.		14/7
Experimental study design (statistics details)	Yes (indicate where provided:	n/a
State whether and how the following have been		
done, <b>or</b> if they were not carried out.		
Sample size determination		N/A
		The present study is
		not a clinical trial.
Randomisation		N/A
		The present study is
		not a clinical trial.
Blinding		N/A
Dilliang		The present study is
		not a clinical trial.
		not a clinical trial.
Inclusion/exclusion criteria		N/A
metasion, exclusion enteria		The present study is
		not a clinical trial.
		not a chinear trial.
Sample definition and in-laboratory replication	Yes (indicate where provided:	n/a
State number of times the experiment was	We have provided the details in methods	
replicated in laboratory	section and every figure legend.	
Define whether data describe technical or biological	We have provided the details in methods	
replicates	section and every figure legend.	
		,
Ethics	Yes (indicate where provided:	
	res (maicate where provided.	n/a N/Δ
Studies involving human participants: State details of	res (mulcate where provided.	N/A
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent	res (muicate where provided.	N/A Our research was no
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for	res (muicate where provided.	N/A Our research was no involved human
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent	res (muicate where provided.	N/A Our research was no
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.	res (muicate where provided.	N/A Our research was no involved human participants.
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving experimental animals: State details	res (muicate where provided.	N/A Our research was no involved human participants.
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving experimental animals: State details of authority granting ethics approval (IRB or	res (muicate where provided.	N/A Our research was no involved human participants.  N/A We did not use
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number	res (muicate where provided.	N/A Our research was no involved human participants.  N/A We did not use Experimental
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.	res (muicate where provided.	N/A Our research was no involved human participants.  N/A We did not use Experimental animals.
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving specimen and field samples: State if	res (muicate where provided.	N/A Our research was no involved human participants.  N/A We did not use Experimental animals. N/A
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving specimen and field samples: State if relevant permits obtained, provide details of	res (muicate where provided.	N/A Our research was no involved human participants.  N/A We did not use Experimental animals. N/A The present study
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required,	res (muicate where provided.	N/A Our research was no involved human participants.  N/A We did not use Experimental animals. N/A The present study was not involved
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving specimen and field samples: State if relevant permits obtained, provide details of	res (muicate where provided.	N/A Our research was no involved human participants.  N/A We did not use Experimental animals. N/A The present study
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required, explain why.		N/A Our research was not involved human participants.  N/A We did not use Experimental animals. N/A The present study was not involved specimen and field samples.
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required, explain why.	Yes (indicate where provided:	N/A Our research was not involved human participants.  N/A We did not use Experimental animals. N/A The present study was not involved specimen and field samples.
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.  Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required, explain why.		N/A Our research was not involved human participants.  N/A We did not use Experimental animals. N/A The present study was not involved specimen and field samples.

# <u>Analysis</u>

Attrition	Yes (indicate where provided:	n/a
State if sample or data point from the analysis is		N/A
excluded, and whether the criteria for exclusion were		
determined and specified in advance.		

Statistics	Yes (indicate where provided:	n/a
Describe statistical tests used and justify choice of	Methods section and paragraph 9	
tests.		

Data Availability	Yes (indicate where provided:	n/a
State whether newly created datasets are available, including protocols for access or restriction on access.		N/A For data privacy, the data will not be made available to other researchers for purposes of reproducing the results or replicating the procedure unless obtaining our agreement.
If data are publicly available, provide accession number in repository or DOI or URL.		N/A
If publicly available data are reused, provide accession number in repository or DOI or URL, where possible.		N/A

Code Availability	Yes (indicate where provided:	n/a
For all newly generated code and software essential		
for replicating the main findings of the study:		
State whether the code or software is available.		N/A
		<u> </u>
If code is publicly available, provide accession		N/A
number in repository, or DOI or URL.		

## Reporting

Adherence to community standards	Yes (indicate where provided: section/paragraph)	n/a
MDAR framework recommends adoption of		
discipline-specific guidelines, established and		
endorsed through community initiatives. Journals		
have their own policy about requiring specific		
guidelines and recommendations to complement		
MDAR.		
State if relevant guidelines (eg., ICMJE, MIBBI,	ICMJE guidelines were followed, as the journal follows	
ARRIVE) have been followed, and whether a checklist	ICMJE recommendations for publication.	
(eg., CONSORT, PRISMA, ARRIVE) is provided with		
the manuscript.
