

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-6635	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The overall heterogeneous slit-illumination images for the lens opacity (opacity area, density and localization) and the cropped images of lens region.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and analytic code will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Ophthalmologists and computer researchers who are interested in studies of the CCNN-Ensemble method for heterogeneous slit-illumination images.
8	For what type of analysis or purpose?	For analysis to evaluate the performance of the CCNN-Ensemble method for heterogeneous slit-illumination images.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: gddlht@aliyun.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
