Section/item	ltem No	Recommendation	Reported on Page Number/Line Number	Reported on Section/Paragraph
Title and abstract	1	(a) Indicate the study's design with a commonly used term in the title or the abstract	P1/L3-4	Tilte Page/P1
		(b) Provide in the abstract an informative and balanced summary of what was done and what was found	P2/L1-18	Abstract/P1-4
Introduction				
Background/ rationale	2	Explain the scientific background and rationale for the investigation being reported	P3/L1-23	Introduction/P1
Objectives	3	State specific objectives, including any prespecified hypotheses	P3/L24-30	Introduction/P1
Methods				
Study design	4	Present key elements of study design early in the paper	P4/L2-7	Methods/P1
Setting	5	Describe the setting, locations, and relevant dates, including periods of recruitment, exposure, follow-up, and data collection	P4/L2-7	Methods/P1
Participants	6	 (a) <i>Cohort study</i>—Give the eligibility criteria, and the sources and methods of selection of participants. Describe methods of follow-up <i>Case-control study</i>—Give the eligibility criteria, and the sources and methods of case ascertainment and control selection. Give the rationale for the choice of cases and controls <i>Cross-sectional study</i>—Give the eligibility criteria, and the sources and methods of selection of participants 	P4/L2-7	Methods/P1
		(b) Cohort study —For matched studies, give matching criteria and number of exposed and unexposed Case-control study —For matched studies, give matching criteria and the number of controls per case	P4/L2-7	Methods/P1
Variables	7	Clearly define all outcomes, exposures, predictors, potential confounders, and effect modifiers. Give diagnostic criteria, if applicable	P4/L8-20	Methods/P2
Data sources/ measurement	8*	For each variable of interest, give sources of data and details of methods of assessment (measurement). Describe comparability of assessment methods if there is more than one group	P4/L8-20	Methods/P2
Bias	9	Describe any efforts to address potential sources of bias	P4/L8-20	Methods/P2
Study size	10	Explain how the study size was arrived at	P4/L2-7	Methods/P1
Quantitative variables	11	Explain how quantitative variables were handled in the analyses. If applicable, describe which groupings were chosen and why	P4/L26-33 P5/L1-26	Methods/p5-8

STROBE Statement-checklist of items that should be included in reports of observational studies

-		1	1
12	(a) Describe all statistical methods, including those used to control for confounding	P5/L28-33 P6/L1-5	Methods/P9
	(b) Describe any methods used to examine subgroups and interactions	P5/L28-33 P6/L1-5	Methods/P9
	(c) Explain how missing data were addressed	P5/L28-33 P6/L1-5	Methods/P9
	(d) Cohort study —If applicable, explain how loss to follow-up was addressed Case-control study —If applicable, explain how matching of cases and controls was addressed Cross-sectional study —If applicable, describe analytical methods taking account of sampling strategy	P5/L28-33 P6/L1-5	Methods/P9
	(e) Describe any sensitivity analyses	P5/L28-33 P6/L1-5	Methods/P9
13*	(a) Report numbers of individuals at each stage of study—eg numbers potentially eligible, examined for eligibility, confirmed eligible, included in the study, completing follow-up, and analysed	P6/L8-25	Results/P1
	(b) Give reasons for non-participation at each stage	P6/L8-25	Results/P1
	(c) Consider use of a flow diagram	P6/L8-25	Results/P1
14*	(a) Give characteristics of study participants (eg demographic, clinical, social) and information on exposures and potential confounders	P6/L11-33 P7/L1-17	Results/P2-4
	(b) Indicate number of participants with missing data for each variable of interest	P6/L11-33 P7/L1-17	Results/P2-4
	(c) Cohort study – Summarise follow-up time (eg, average and total amount)	P6/L11-33 P7/L1-17	Results/P2-4
15*	Cohort study – Report numbers of outcome events or summary measures over time	P6/L11-33 P7/L1-17	Results/P2-4
	Case-control study – Report numbers in each exposure category, or summary measures of exposure	P6/L11-33 P7/L1-17	Results/P2-4
	Cross-sectional study – Report numbers of outcome events or summary measures	P6/L11-33 P7/L1-17	Results/P2-4
16	(a) Give unadjusted estimates and, if applicable, confounder-adjusted estimates and their precision (eg, 95% confidence interval). Make clear which confounders were adjusted for and why they were included	P6/L11-33 P7/L1-17	Results/P2-4
	(b) Report category boundaries when continuous variables were categorized	P6/L11-33 P7/L1-17	Results/P2-4
	(c) If relevant, consider translating estimates of relative risk into absolute risk for a meaningful time period	P6/L11-33 P7/L1-17	Results/P2-4
17	Report other analyses done-eg analyses of subgroups and interactions, and sensitivity analyses	P6/L11-33 P7/L1-17	Results/P2-4
18	Summarise key results with reference to study objectives P7/L21-34 P8/L1-34 P9	L1-34 P10/1-8	Discussion/P1-6
19	Discuss limitations of the study, taking into account sources of potential bias or imprecision. Discuss both direction and magnitude of any potential bias	P10/L9-18	Discussion/P7
	13* 14* 15* 16 17 18	13* (b) Describe any methods used to examine subgroups and interactions (c) Explain how missing data were addressed (c) Explain how missing data were addressed (d) Cohort study—If applicable, explain how matching of cases and controls was addressed Case-control study—If applicable, explain how matching of cases and controls was addressed (a) Report numbers of individuals at each stage of study—eg numbers potentially eligible, examined for eligibility, confirmed eligible, included in the study, completing follow-up, and analysed (b) Give reasons for non-participation at each stage (c) Consider use of a flow diagram (a) Give characteristics of study participants (eg demographic, clinical, social) and information on exposures and potential confounders (b) Indicate number of participants with missing data for each variable of interest (c) Cohort study—Summarise follow-up time (eg, average and total amount) 15* Cohort study—Report numbers of outcome events or summary measures over time Case-control study—Report numbers of outcome events or summary measures (c) Give unadjusted estimates and, if applicable, confounder-adjusted for and why they were included (b) Report category boundaries when continuous variables were categorized (c) If relevant, consider translating estimates of relative risk into absolute risk for a meaningful time period 16 Report tampage done—eg analyses of subgroups and interactions, and sensitivity analyses 18 Summarise key resuits with reference to study objectives <td>(b) Describe any methods used to examine subgroups and interactions P5/L28-33 P6/L1-5 (c) Explain how missing data were addressed P5/L28-33 P6/L1-5 (c) Cohort study—If applicable, explain how loss to follow-up was addressed P5/L28-33 P6/L1-5 (c) Cohort study—If applicable, explain how matching of cases and controls was addressed P5/L28-33 P6/L1-5 (c) Explain how missing data were addressed P5/L28-33 P6/L1-5 (c) Cohort study—If applicable, describe analytical methods taking account of sampling strategy P5/L28-33 P6/L1-5 (a) Report numbers of individuals at each stage of study—eg numbers potentially eligible, examined for eligibility, confirmed eligible, included in the study, completing follow-up, and analysed P6/L8-25 (c) Consider use of a flow diagram P6/L8-25 P6/L8-25 (a) Give characteristics of study participants (eg demographic, clinical, social) and information on exposures and potential confounders P6/L1-33 P7/L1-17 (b) Indicate number of participants with missing data for each variable of interest P6/L1-33 P7/L1-17 (c) Cohort study—Report numbers of outcome events or summary measures of exposure P6/L1-1-33 P7/L1-17 (c) Guber tategory boundaries when continuous variables were categorized P6/L1-1-33 P7/L1-17</td>	(b) Describe any methods used to examine subgroups and interactions P5/L28-33 P6/L1-5 (c) Explain how missing data were addressed P5/L28-33 P6/L1-5 (c) Cohort study—If applicable, explain how loss to follow-up was addressed P5/L28-33 P6/L1-5 (c) Cohort study—If applicable, explain how matching of cases and controls was addressed P5/L28-33 P6/L1-5 (c) Explain how missing data were addressed P5/L28-33 P6/L1-5 (c) Cohort study—If applicable, describe analytical methods taking account of sampling strategy P5/L28-33 P6/L1-5 (a) Report numbers of individuals at each stage of study—eg numbers potentially eligible, examined for eligibility, confirmed eligible, included in the study, completing follow-up, and analysed P6/L8-25 (c) Consider use of a flow diagram P6/L8-25 P6/L8-25 (a) Give characteristics of study participants (eg demographic, clinical, social) and information on exposures and potential confounders P6/L1-33 P7/L1-17 (b) Indicate number of participants with missing data for each variable of interest P6/L1-33 P7/L1-17 (c) Cohort study—Report numbers of outcome events or summary measures of exposure P6/L1-1-33 P7/L1-17 (c) Guber tategory boundaries when continuous variables were categorized P6/L1-1-33 P7/L1-17

Interpretation	20	Give a cautious overall interpretation of results considering objectives, limitations, multiplicity of analyses, results from similar studies, and other relevant evidence	P10/L19-22	Discussion/P8				
Generalisability	21	Discuss the generalisability (external validity) of the study results	P10/L19-22	Discussion/P8				
Other information								
Funding	22	Give the source of funding and the role of the funders for the present study and, if applicable, for the original study on which the present article is based	P10/L25-26	Funding/P1				

*Give information separately for cases and controls in case-control studies and, if applicable, for exposed and unexposed groups in cohort and cross-sectional studies.

Note: An Explanation and Elaboration article discusses each checklist item and gives methodological background and published examples of transparent reporting. The STROBE checklist is best used in conjunction with this article (freely available on the Web sites of PLoS Medicine at http://www.plosmedicine.org/, Annals of Internal Medicine at http://www.annals.org/, and Epidemiology at http://www.epidem.com/). Information on the STROBE Initiative is available at www.strobe-statement.org.
