

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/atm-21-1481">http://dx.doi.org/10.21037/atm-21-1481</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data in particular will be shared, and we also found a correlation between PSMF12 and Nrf2, which has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	the readers of <i>Annals of Translational Medicine</i> , science researcher and clinicians
8	For what type of analysis or purpose?	Data can be obtained from the corresponding author
9	How or where can the data/documents be obtained?	For analysis to evaluate the expression and prognosis of PSMD12 in glioma, and correlation between PSMD12 and Nrf2 in glioma
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
