

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-21-436	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data that support the findings of this study are available from the corresponding author on reasonable request. Participant data without names and identifiers will be made available after approval from the corresponding author and the institution.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	After publication of study findings, the data will be available for others to request.
6	When will data availability end?	After publication of study findings, the data will be available for others to request.
7	To whom will you share the data?	-
8	For what type of analysis or purpose?	-
9	How or where can the data/documents be obtained?	The research team will provide an email address for communication once the data are approved to be shared with others.
10	Any other restrictions?	The proposal with detailed description of study objectives and statistical analysis plan will be needed for evaluation of the reasonability to request for our data. The corresponding author, the institution will make a decision based on these materials. Additional materials may also be required during the process.
