

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-21-354	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	We would like to share the RNA sequencing data. The mechanics data is fully shared within the body of the manuscript.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The RNA sequencing data will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and other information is clearly described within the manuscript. As such, the authors will not be posting other documents separately.
5	When will data availability begin?	Data will be uploaded before publication.
6	When will data availability end?	Data should remain on the NCBI GEO website without an expiration.
7	To whom will you share the data?	Data will be publicly available on the NCBI GEO website.
8	For what type of analysis or purpose?	The use will not be restricted.
9	How or where can the data/documents be obtained?	The authors will provide a NCBI GEO accession number before publication. This will be provided during final edits.
10	Any other restrictions?	No restrictions.
