

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-20-4684	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data on the epidemiological characteristics, diagnosis, and treatment of hepatic hemangioma patients will be shared. The indications for treatment, therapies, and outcomes are clarified and summarized to improve the understanding of hepatic hemangioma diagnosis and treatment, which has seldom been provided in previous studies.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since treatment concept or the technique may be updated over time.
7	To whom will you share the data?	Medical oncologists and Hepatobiliary surgeons who are interested in studies of liver hemangioma.
8	For what type of analysis or purpose?	For analysis to improve the understanding of hepatic hemangioma diagnosis and treatment.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: Tangtq1982@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
