

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-21-1930	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	We would like to share the method how to intubate the rabbits because this method presents a high success rate, which may be helpful for other researchers.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	We'd like to share the video to show the improvement in the tolerance of intubation for the rabbits undergoing PLGA + lidocaine endotracheal tube intubation.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Anesthesiologists and researchers who are interested in the treatment of endotracheal tube-related adverse effects.
8	For what type of analysis or purpose?	For the studies on the safety and efficacy of endotracheal tube safety.
9	How or where can the data/documents be obtained?	Email could be sent to the address: tianwenjie1976@hotmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
