

Data Sharing Statement

| | | |
|---------------------|---|--|
| Article Info | https://dx.doi.org/10.21037/atm-21-1607 | |
| Item | Question | Authors' Response (place "-" if not applicable) |
| 1 | Would you like to share data collected for your study to others? | yes |
| 2 | If not, would you like to share the reason for your decision? | - |
| 3 | What data in particular will be shared? | The level of plasma protein in participants data in particular will be shared, and we also found HSP10, ZC3H8, and UNC45A, are sensitive and specific biomarkers for the diagnosis of POP, which has seldom been provided in previous studies. |
| 4 | Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code. | Statistical analysis plan and informed consent form will also be shared if requested. |
| 5 | When will data availability begin? | From the publication date. |
| 6 | When will data availability end? | Two years within the publication date, since the technique or survival date may be updated over time. |
| 7 | To whom will you share the data? | Gynecologist and medical researchers who are interested in studies of pelvic organ prolapse. |
| 8 | For what type of analysis or purpose? | To analyze plasma proteins as potential biomarkers for the diagnosis of pelvic organ prolapse |
| 9 | How or where can the data/documents be obtained? | Emails could be sent to the address below to obtain the shared data: niuxy@scu.edu.cn |
| 10 | Any other restrictions? | We may balance the potential benefits and risks for each request and then provide the data that could be shared. |
