

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/atm-21-1100	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	The input data used to populate the health economic model are available from the corresponding author on reasonable request. The individual patient level data collected from the HD/HP trial cannot be shared.
2	If not, would you like to share the reason for your decision?	Patient confidentiality (for individual patient level data collected from the HD/HP trial)
3	What data in particular will be shared?	The data used to populate the health economic model, including clinical effectiveness data, unit cost data, resource use data and quality of life data.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The protocol for the HD/HP trial has been published (reference see below). Lu W, Jiang GR; HD/HP versus HD trial Group. Randomised, open-label, multicentre trial comparing haemodialysis plus haemoperfusion versus haemodialysis alone in adult patients with end-stage renal disease (HD/HP vs HD): study protocol. <i>BMJ Open</i> . 2018 Jul 28;8(7):e022169. doi: 10.1136/bmjopen-2018-022169. PMID: 30056391; PMCID: PMC6067402.
5	When will data availability begin?	From the day of paper acceptance.
6	When will data availability end?	5 years after the day of paper acceptance.
7	To whom will you share the data?	Researchers of non-profit organisations.
8	For what type of analysis or purpose?	For research purpose.
9	How or where can the data/documents be obtained?	By contacting the corresponding author: Dr Huajie Jin (huajie.jin@kcl.ac.uk)
10	Any other restrictions?	None
