

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-21-2342	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes, the data presented in the study are available from the first author or corresponding author on reasonable request.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Because the mortality data in our study are exceptionally reliable, sharing it may help other studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, Analytic code will be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication date.
7	To whom will you share the data?	Medical researcher who are interested in studies of mechanical thrombectomy.
8	For what type of analysis or purpose?	For analysis to evaluate the outcome of mechanical thrombectomy.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: seobin@nhimc.or.kr
10	Any other restrictions?	We need to balance the potential benefits and risks for each request and then provide the data that could be shared. There are some restrictions because we got the data from the National Health Insurance Sharing Service of Korea for sharing the national health insurance claims data.
