Your N	ame: Jakob Wolynski	
Manus	cript Title: <u>Diagnostic Prediction of Ovine Fracture Healing Outcomes via a Novel Multi-Location</u>	<u>l</u>
Direct	Electromagnetic Coupling Antenna	
Manus	cript number (if known): <u>ATM-21-1853</u>	

In the interest of transparency, we ask you to disclose all relationships/activities/interests listed below that are related to the content of your manuscript. "Related" means any relation with for-profit or not-for-profit third parties whose interests may be affected by the content of the manuscript. Disclosure represents a commitment to transparency and does not necessarily indicate a bias. If you are in doubt about whether to list a relationship/activity/interest, it is preferable that you do so.

The following questions apply to the author's relationships/activities/interests as they relate to the <u>current</u> <u>manuscript only</u>.

The author's relationships/activities/interests should be <u>defined broadly</u>. For example, if your manuscript pertains to the epidemiology of hypertension, you should declare all relationships with manufacturers of antihypertensive medication, even if that medication is not mentioned in the manuscript.

_		Name all entities with whom you have this relationship or indicate none (add rows as needed)	Specifications/Comments (e.g., if payments were made to you or to your institution)
		Time frame: Since the initial	planning of the work
1	All support for the present manuscript (e.g., funding, provision of study materials, medical writing, article processing charges, etc.) No time limit for this item.	NIH - NIAMS	R01AR069734-01 - "Early Detection and Prediction of Complex Bone Fracture Healing"
		Time frame: past	36 months
2	Grants or contracts from any entity (if not indicated in item #1 above).	NIH COEDIT	1R21AR077323 AI POC 268597
3	Royalties or licenses	XNone	
4	Consulting fees	XNone	

5	Payment or honoraria for lectures, presentations, speakers bureaus, manuscript writing or educational events Payment for expert testimony	XNone XNone	
7	Support for attending meetings and/or travel	NIH - NIAMS	R01AR069734-01 - "Early Detection and Prediction of Complex Bone Fracture Healing"
8	Patents planned, issued or pending	US20210131785A1	Pending
9	Participation on a Data Safety Monitoring Board or Advisory Board	XNone	
10	Leadership or fiduciary role in other board, society, committee or advocacy group, paid or unpaid	X_None	
11	Stock or stock options	XNone	
12	Receipt of equipment, materials, drugs, medical writing, gifts or other services	X_None	
13	Other financial or non- financial interests	XNone	

Funding to the author's institution from the National Institutes of Health (NIH) funded the present study and relevant travel for this. Additional funding from the NIH and Colorado Office of Economic Development and International Trade (COEDIT) supported related research, but did not directly support the work presented in this manuscript. The author is an inventor of patents related to the technology developed in this study.
