TRIPOD Checklist: Prediction Model Development

Section	Item	Checklist description	Reported on Page Number/Line Number	Reported on Section/Paragraph
Title and abstract				
Title	1	Identify the study as developing and/or validating a multivariable prediction model, the target population, and the outcome to be predicted.	Page 4 / Line 48-49	Abstract / Para 1
Abstract	2	Provide a summary of objectives, study design, setting, participants, sample size, predictors, outcome, statistical analysis, results, and conclusions.	Page4-5 / Line 52-83	Abstract / Para 1-4
Introduction				
Background and objectives	3a	Explain the medical context (including whether diagnostic or prognostic) and rationale for developing or validating the multivariable prediction model, including references to existing models.	Page 6-8 / Line 92-136	Introduction / Para 1-2
	3b	Specify the objectives, including whether the study describes the development or validation of the model or both.	Page 8 / Line 133-136	Introduction / Para 3
Methods				
Source of data	4a	Describe the study design or source of data (e.g., randomized trial, cohort, or registry data), separately for the development and validation data sets, ifapplicable.	Page 8 / Line 140-143	Methods / Para 1
	4b	Specify the key study dates, including start of accrual; end of accrual; and, if applicable, end of follow-up.	Page 8-9 / Line 146-150	Methods / Para 2
Participants	5a	Specify key elements of the study setting (e.g., primary care, secondary care, general population) including number and location of centres.	Page 8-9 / Line 140-150	Methods / Para 1-2
	5b	Describe eligibility criteria for participants.	Page 8-9 / Line 146-150	Methods / Para 2
	5c	Give details of treatments received, if relevant.	Table 1	Table 1
Outcome	6a	Clearly define the outcome that is predicted by the prediction model, including how and when assessed.	Page 9 / Line 144-145	Methods / Para 3
	6b	Report any actions to blind assessment of the outcome to be predicted.	N/A	N/A
Predictors	7a	Clearly define all predictors used in developing or validating the multivariable prediction model, including how and when they were measured.	Page 9 / Line 151-159	Methods / Para 3
	7b	Report any actions to blind assessment of predictors for the outcome and other predictors.	N/A	N/A
Sample size	8	Explain how the study size was arrived at.	Page 8-9 / Line 140-150	Methods / Para 1-2

Missing data	9	Describe how missing data were handled (e.g., complete-case analysis, single imputation, multiple imputation) with details of any imputation method.	Page 9 / Line 149	Methods / Para 2
Statistical analysis methods	10a	Describe how predictors were handled in the analyses.	Page 9 / Line 151-160	Methods / Para 3
	10b	Specify type of model, all model-building procedures (including any predictor selection), and method for internal validation.	Page 9-10 / Line 67-168	Methods / Para 4-5
	10d	Specify all measures used to assess model performance and, if relevant, to compare multiple models.	Page 10 / Line 171-186	Methods / Para 5
Risk groups	11	Provide details on how risk groups were created, if done.	N/A	N/A
Results				
Participants	13a	Describe the flow of participants through the study, including the number of participants with and without the outcome and, if applicable, a summary of the follow-up time. A diagram may be helpful.	Page 11 / Line 190-194	Results / Para 1
	13b	Describe the characteristics of the participants (basic demographics, clinical features, available predictors), including the number of participants with missing data for predictors and outcome.	Page 11 / Line 193-210	Results / Para 1
Model development	14a	Specify the number of participants and outcome events in each analysis.	Table 1	Table 1
	14b	If done, report the unadjusted association between each candidate predictor and outcome.	Page 12 / Line 213-226	Results / Para 2
Model specification	15a	Present the full prediction model to allow predictions for individuals (i.e., all regression coefficients, and model intercept or baseline survival at a given time point).	Table S1	Table S1
	15b	Explain how to the use the prediction model.	Page 12-13 / Line 227-232	Results / Para 3
Model performance	16	Report performance measures (with CIs) for the prediction model.	Page 13-15 / Line 235-276	Results / Para 4-7
Discussion				
Limitations	18	Discuss any limitations of the study (such as nonrepresentative sample, few events per predictor, missing data).	Page 20-21/ Line 383-395	Discussion / Para 6
Interpretation	19b	Give an overall interpretation of the results, considering objectives, limitations, and results from similar studies, and other relevant evidence.	Page 15-20 / Line 279-395	Discussion / Para 1-3
Implications	20	Discuss the potential clinical use of the model and implications for future research.	Page 19-20 / Line 361-382	Discussion / Para 5
Other information				
Supplementary information	21	Provide information about the availability of supplementary resources, such as study protocol, Web calculator, and data sets.	N/A	N/A
Funding	22	Give the source of funding and the role of the funders for the present study.	Page 21 / Line 408	Funding / Para 1
