

## **Materials Design Analysis Reporting (MDAR) Checklist for Authors**

The MDAR framework establishes a minimum set of requirements in transparent reporting applicable to studies in the life sciences (see Statement of Task: [doi:10.31222/osf.io/9sm4x](https://doi.org/10.31222/osf.io/9sm4x)). The MDAR checklist is a tool for authors, editors and others seeking to adopt the MDAR framework for transparent reporting in manuscripts and other outputs. Please refer to the MDAR Elaboration Document for additional context for the MDAR framework.

**Materials**

<b>Antibodies</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
For commercial reagents, provide supplier name, catalogue number and RRID, if available.	Methods section/Western blot	
<b>Cell materials</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
<b>Cell lines:</b> Provide species information, strain. Provide accession number in repository <b>OR</b> supplier name, catalog number, clone number, <b>OR</b> RRID	Methods section/Cell lines and cell culture	
<b>Primary cultures:</b> Provide species, strain, sex of origin, genetic modification status.	We don't have primary culture data.	n/a
<b>Experimental animals</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
<b>Laboratory animals:</b> Provide species, strain, sex, age, genetic modification status. Provide accession number in repository <b>OR</b> supplier name, catalog number, clone number, <b>OR</b> RRID	Our research doesn't involve with animals.	n/a
<b>Animal observed in or captured from the field:</b> Provide species, sex and age where possible	Our research doesn't involve with animals.	n/a
<b>Model organisms:</b> Provide Accession number in repository (where relevant) <b>OR</b> RRID	Our research doesn't involve with animals.	n/a
<b>Plants and microbes</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
<b>Plants:</b> provide species and strain, unique accession number if available, and source (including location for collected wild specimens)	Our research doesn't involve with plants.	n/a
<b>Microbes:</b> provide species and strain, unique accession number if available, and source	Our research doesn't involve with microbes.	n/a
<b>Human research participants</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
Identify authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.	Our research doesn't involve with human research.	n/a
Provide statement confirming informed consent obtained from study participants.	Our research doesn't involve with human research.	n/a
Report on age and sex for all study participants.	Our research doesn't involve with human research.	n/a

**Design**

<b>Study protocol</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
For clinical trials, provide the trial registration number <b>OR</b> cite DOI in manuscript.	Our research doesn't involve with clinical trials.	n/a
<b>Laboratory protocol</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
Provide DOI or other citation details if detailed step-by-step protocols are available.	We don't have laboratory protocol.	n/a
<b>Experimental study design (statistics details)</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
State whether and how the following have been done, <b>or</b> if they were not carried out.	Confirm	n/a
Sample size determination	We don't determine the sample size.	n/a
Randomisation	We don't need randomization.	n/a
Blinding	We don't need blinding.	n/a
Inclusion/exclusion criteria	We don't need exclusion criteria.	n/a
<b>Sample definition and in-laboratory replication</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
State number of times the experiment was replicated in laboratory	Methods section/Statistical analysis Results section/Figure 1 Results section/Figure 2 Results section/Figure 3 Results section/Figure 4 Results section/Figure 5	
Define whether data describe technical or biological replicates	Methods section/Statistical analysis Results section/Figure 1 Results section/Figure 2 Results section/Figure 3 Results section/Figure 4 Results section/Figure 5	
<b>Ethics</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
Studies involving human participants: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.	Our research doesn't involve with human participants.	n/a
Studies involving experimental animals: State details of authority granting ethics approval (IRB or equivalent committee(s), provide reference number for approval.	Our research doesn't involve with experimental animals.	n/a
Studies involving specimen and field samples: State if relevant permits obtained, provide details of authority approving study; if none were required, explain why.	Our research doesn't involve with specimen and field samples.	n/a
<b>Dual Use Research of Concern (DURC)</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
If study is subject to dual use research of concern, state the authority granting approval and reference number for the regulatory approval	Our research doesn't involve with dual use research.	n/a

**Analysis**

<b>Attrition</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
State if sample or data point from the analysis is excluded, and whether the criteria for exclusion were determined and specified in advance.	We don't describe the exclusion of sample.	n/a
<b>Statistics</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
Describe statistical tests used and justify choice of tests.	Methods section/Statistical analysis	
<b>Data Availability</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
State whether newly created datasets are available, including protocols for access or restriction on access.	We don't have protocols or restriction of access.	n/a
If data are publicly available, provide accession number in repository or DOI or URL.	We don't have DOI or URL in repository.	n/a
If publicly available data are reused, provide accession number in repository or DOI or URL, where possible.	We don't have DOI or URL in repository.	n/a
<b>Code Availability</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
For all newly generated code and software essential for replicating the main findings of the study:	We don't have code.	n/a
State whether the code or software is available.	We don't have code.	n/a
If code is publicly available, provide accession number in repository, or DOI or URL.	We don't have code.	n/a

**Reporting**

<b>Adherence to community standards</b>	<b>Yes (indicate where provided: section/paragraph)</b>	<b>n/a</b>
MDAR framework recommends adoption of discipline-specific guidelines, established and endorsed through community initiatives. Journals have their own policy about requiring specific guidelines and recommendations to complement MDAR.		
State if relevant guidelines (eg., ICMJE, MIBBI, ARRIVE) have been followed, and whether a checklist (eg., CONSORT, PRISMA, ARRIVE) is provided with the manuscript.	ICMJE guidelines were followed, as the journal follows ICMJE recommendations for publication.
