

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/atm-21-3076">https://dx.doi.org/10.21037/atm-21-3076</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The GEO data in particular will be shared, and we also found a correlation between the miR-361-3p and LRIG1/ hsa_circ_0000006, which was rare reported in previous researches.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis, material and methods will be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Medical oncologists and sarcoma professors who are interested in studies of miR-361-3p.
8	For what type of analysis or purpose?	For analysis to evaluate the safety of miR-361-3p in osteosarcoma animals.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 3151093997@qq.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
