

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-21-2980	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data showing hyperoside suppresses HCC cell proliferation and induces cell cycle arrest will be particularly shared. It has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and study protocol will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	2 years within the publication date.
7	To whom will you share the data?	Oncologist and hepatologist who are interested in HCC
8	For what type of analysis or purpose?	Mainly for studying the anti-cancer role of hyperoside.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: czb1971@zju.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
