| Data Sharing Statement | | | |
|------------------------|--|---|--|
| Article Info | https://dx.doi.org/10.21037/atm-21-4021 | | |
| Item | Question | Authors' Response (place "-" if not applicable) | |
| 1 | Would you like to share data collected for your study to others? | Yes. | |
| 2 | If not, would you like to share the reason for your decision? | - | |
| 3 | What data in particular will be shared? | The tumor data in particular will be shared, and we also found that due to the inherent characteristics of digestive tract tumors, indocyanine green can be reabsorbed through the glands in the digestive tract mucosa, resulting in continuous absorption and accumulation of indocyanine green in normal mucosal tissues, and finally the phenomenon that the fluorescence of normal tissues is higher than that of background tissues, which has seldom been provided in previous studies. | |
| 4 | Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code. | Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested. | |
| 5 | When will data availability begin? | From the publication date. | |
| 6 | When will data availability end? | Five years within the publication date, since the technique may be updated over time. | |
| 7 | To whom will you share the data? | Medical oncologists and gastrointestinal surgeons who are interested in colorectal cancer research. | |
| 8 | For what type of analysis or purpose? | For analysis to optimize this procedure and consider more information such as the clinical stages of the patients and pathological stages of the tumor. | |
| 9 | How or where can the data/documents be obtained? | Emails could be sent to the address below to obtain the shared data: 474644701@qq.com. | |

| 10 | Any other restrictions? | We may balance the potential benefits and risks |
|----|-------------------------|---|
| | | for each request and then provide the data that |
| | | could be shared. |
