

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-21-3400	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Preoperative X-ray, CT Scan, MRI and prosthesis design data
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The study protocol, statistical analysis plan, informed consent form, and clinical follow-up will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year from the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Orthopedic doctors who are interested in 3D-printing technology.
8	For what type of analysis or purpose?	Investigating the clinical effects of 3D-printed personalized prostheses for bone defect repair and reconstruction following resection of metacarpal GCTs.
9	How or where can the data/documents be obtained?	Emails can be sent to the address below to obtain the shared data: xulin1982@hotmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and provide the data that we decide can be shared.
