

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-21-3334	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data regarding the procedure of prokaryotic expression and purification of HLA-G5 protein and ligand system evolution and aptamer screening.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Obstetrician and gynecologist who are interested in the soluble human leukocyte antigen G5.
8	For what type of analysis or purpose?	For analysis to explore novel nucleic acid aptamers.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: yqyao_ghpla@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
