

Data Sharing Statement

| | | |
|---------------------|---|--|
| Article Info | https://dx.doi.org/10.21037/atm-21-4342 | |
| Item | Question | Authors' Response (place "-" if not applicable) |
| 1 | Would you like to share data collected for your study to others? | Yes, if requested or of interest to others. |
| 2 | If not, would you like to share the reason for your decision? | - |
| 3 | What data in particular will be shared? | The authors confirm that de-identified outcomes data can be considered for sharing. |
| 4 | Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code. | Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested. |
| 5 | When will data availability begin? | From the publication date. |
| 6 | When will data availability end? | Two years within the publication date, since the technique or survival date may be updated over time. |
| 7 | To whom will you share the data? | Data can be shared with other investigators considering similar clinical questions, especially RNA-seq analysis of pulmonary hypertension. |
| 8 | For what type of analysis or purpose? | For comparison with their own responses from patients. |
| 9 | How or where can the data/documents be obtained? | Emails could be sent to the the corresponding authors to obtain the shared details upon reasonable request. |
| 10 | Any other restrictions? | We may balance the potential benefits and risks for each request and then provide the data that could be shared. |
