

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-21-4925	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data will be shared, and we also constructed a ceRNA subnetwork and one survival-related differentially expressed lncRNA which have not been reported in the previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form will be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical oncologists and neurosurgeons who are interested in studies of glioblastoma and ceRNA network.
8	For what type of analysis or purpose?	For analysis to evaluate the prognostic value of IL10RB-AS1 in GBM patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: hongfan900921@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
