

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-21-4715	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	No
2	If not, would you like to share the reason for your decision?	The data can be obtained when contacting the corresponding author. The raw/processed data cannot be shared as open data at this time as the data also forms part of some ongoing studies.
3	What data in particular will be shared?	-
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The sequencing results will also be shared if requested.
5	When will data availability begin?	From the publication date
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Researchers in universities or research institutions
8	For what type of analysis or purpose?	-
9	How or where can the data/documents be obtained?	Emails could be sent to the corresponding author.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
