

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-21-5149	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The AAV-mediated gene transfer and injection data in particular will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	CUMS protocol, behavioral procedures, and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or behavioral procedures may be updated over time.
7	To whom will you share the data?	Medical neuropsychiatrists and scientific researchers who are interested in studies of depression.
8	For what type of analysis or purpose?	For analysis to evaluate the safety of miR-139-5p in depression.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: huangpengsmu@126.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
