

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-21-3372	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Survival data, in vivo imaging data, and T lymphocytes detection data.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study plan, and part of the original data of animal study (body weight, hematological data, biochemistry data, pathological data).
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the techniques may be updated over time.
7	To whom will you share the data?	Researchers and technicians in the preclinical safety evaluation area.
8	For what type of analysis or purpose?	For analysis to evaluate the safety of CAR-T products, especially those targeting at CD19.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: hairuowen@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
