

## Data Sharing Statement

<b>Article Info</b>	https://dx.doi.org/10.21037/atm-21-3270	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes. However, currently, the data are not publicly available; we would welcome collaborations and research proposals.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The baseline characteristics and the follow-up data will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and the cohort profile will also be shared if requested.
5	When will data availability begin?	As we have explained, the data are not publicly available currently. But we welcome collaborations and research proposals.
6	When will data availability end?	As we have explained, the data are not publicly available currently. But we would welcome collaborations and research proposals.
7	To whom will you share the data?	Any researchers with detailed research proposals.
8	For what type of analysis or purpose?	For analysis to promote the understanding of age in a global context.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to request information about the EHS cohort: <a href="mailto:cms1@hku.hk">cms1@hku.hk</a> .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared
