

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-21-6243	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The characteristic and outcomes of cases will be shared if requested.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan, and informed consent form will be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Surgeons or researchers who are interested in the surgical treatment of VSR.
8	For what type of analysis or purpose?	For further research on the surgical treatment of VSR.
9	How or where can the data/documents be obtained?	Emails could be sent to the address of the corresponding author to obtain the shared data.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared. The share should be approved by all the authors.
