

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-21-4800	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The study results of up-regulated genes expression related to proliferation and differentiation, the up-regulated mRNA expression of GATA-1 and GATA-2, and the enhanced expression level and phosphorylation status of GATA protein by PDS-C. The monomer composition of traditional Chinese medicine(PDS-C) cannot be shared because it involves patents and other reasons.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Yes. Research protocol, statistical approach.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Three years since the publication date.
7	To whom will you share the data?	Hematologists and Chinese medical researchers who are interested.
8	For what type of analysis or purpose?	Improve our understanding of Chinese medicine research and pay more attention to patients with hemocytopenia.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: Daitieying2000@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
