

## Data Sharing Statement

<b>Article Info</b>	https://dx.doi.org/10.21037/atm-21-4591	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The original data without information related to patients' identity. DICOM-formatted data will not be shared because it contains information of patients.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	From the publication date.
6	When will data availability end?	-
7	To whom will you share the data?	Surgeons or researchers in the field of orthopaedic trauma surgery.
8	For what type of analysis or purpose?	Further exploration of morphological details of fractures.
9	How or where can the data/documents be obtained?	As requested by Email: <a href="mailto:2465471375@qq.com">2465471375@qq.com</a> <a href="mailto:congfenl@outlook.com">congfenl@outlook.com</a>
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
