

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-72	
Item	Question	Authors' Response (place "0" if not applicable)
1	Would you like to share data collected for your study to others?	No.
2	If not, would you like to share the reason for your decision?	This experiment was to study the effects of adhesive surface with porcelain sintering and different silane coupling agents on the bonding strength and durability of zirconia ceramics. The samples of zirconia ceramics cannot be stored for a long time, and their surface properties have changed a lot, so they are not reproducible.
3	What data in particular will be shared?	-
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	-
6	When will data availability end?	-
7	To whom will you share the data?	-
8	For what type of analysis or purpose?	-
9	How or where can the data/documents be obtained?	-
10	Any other restrictions?	-
