

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-21-6925	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The raw data of NGS assay of the proband will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The proband's treatment process, course of disease, results of family analysis, etc. can be shared if necessary.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Five years within the publication date, since the incidence of disease in family members may change.
7	To whom will you share the data?	Oncologists interested in the genetics of lung cancer.
8	For what type of analysis or purpose?	It is used to study the genetics of lung cancer and EGFR-TKIs resistance.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: jyf@hospital.cqmu.edu.cn .
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
