<b>Item</b>	<b>Question</b>	<b>Authors' Response (place “” if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The clinical protocol will be shared, and we found a correlation between the delayed time of embryo transfer and endometrium development
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis, informed consent form, and study protocol will also be shared if requested
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or mechanism of infertility may be updated and study further.
7	To whom will you share the data?	For those in reproductive medicine who are interested in studies of RIF and endometrium receptivity
8	For what type of analysis or purpose?	To improve clinical outcomes of patients with recurrent implantation failure in frozen-thawed embryo transfer cycles
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 562548313@qq.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared
