

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-220	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data about correlation between intraoperative fluorescence imaging length and postoperative flap survival length, which has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and informed consent form will be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Surgeons who are interested in studies of ICGA.
8	For what type of analysis or purpose?	For analysis to evaluate the application of ICGA in the harvest of multi-angiosome perforator flaps.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: weiyoyo@fmmu.edu.cn.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
