

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/atm-21-3635">https://dx.doi.org/10.21037/atm-21-3635</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Bioinformatics data analysis results and protein expression data of CASP3 and TP53 will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists, Endocrinologists and gastrointestinal surgeons who are interested in type 2 diabetes and stomach cancer.
8	For what type of analysis or purpose?	To analyze the molecular mechanism of type 2 diabetes affecting the incidence and mortality of gastric cancer.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: lswspring6@aliyun.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
