<b>Item</b>	<b>Question</b>	<b>Authors' Response (place “-” if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data of melatonin's effects on inflammation and angiogenesis in alkali injury-induced angiogenesis.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan, informed consent form, will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Researchers who are interested in our study.
8	For what type of analysis or purpose?	To investigated the role of melatonin regarding pro-angiogenic factors and inflammation-related molecules in in vivo and in vitro macrophages.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 822616153@qq.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
