

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-1769	
Item	Question	Authors' Response (place “-” if not applicable)
1	Would you like to share data collected for your study to others?	No.
2	If not, would you like to share the reason for your decision?	(1)The raw data were obscure and hard to understand without our interpretation, i.e., the legends of the immunohistochemical /PCR images were intentionally hided to implement blinding methods. (2) The study is a preliminary validation of the novel hypothesis of “SGLT1 bridge”, and we will perform a further study based on the data in hand that should be classified.
3	What data in particular will be shared?	-
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No.
5	When will data availability begin?	-
6	When will data availability end?	-
7	To whom will you share the data?	-
8	For what type of analysis or purpose?	-
9	How or where can the data/documents be obtained?	-
10	Any other restrictions?	-
