

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/atm-22-1962">https://dx.doi.org/10.21037/atm-22-1962</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place “-” if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The evaluation of CKZ effect on SR FSGS, in particular, will be shared, including general condition, measurement of 24-hour urine protein, blood biochemistry and pathological observation of the kidney.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Medical nephrologists and nephrologists who are interested in studies of FSGS.
8	For what type of analysis or purpose?	For analysis to evaluate the effect of traditional Chinese medicine on FSGS.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 13437846519@139.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
