

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-1837	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The original analysis data in particular will be shared. We found the raw data of the percentage of EN calories and protein of ICU admission, EN percent elevation, and the incidence of gastric retention, diarrhea after EN administration, ICU and 28-day mortality, length of ICU stay, total hospitalization cost, and ventilator-free days were perspective.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the investigation may be updated over time.
7	To whom will you share the data?	People who are interested in short-peptide formula and intact-protein formula for early enteral nutrition initiation in patients with acute gastrointestinal injury.
8	For what type of analysis or purpose?	For analysis to evaluate short-peptide formula and intact-protein formula for early enteral nutrition initiation in patients with acute gastrointestinal injury.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: zhangdong@jlu.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
