

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/atm-22-2099	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The expression changes of miRNA-34A /Sirt1/p53 pathway in regenerated lens, which has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and Statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the date of publication, as relevant research may be updated over time.
7	To whom will you share the data?	Ophthalmologist interested in lens regeneration research.
8	For what type of analysis or purpose?	It was used to analyze and evaluate the effect of Sirt1 on lens regeneration.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: xuanli08@yahoo.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
